

David Newman

Professional Profile

OVERVIEW

David Newman is a partner of Epicoach, LLC, a firm that specializes in **Executive, Professional and Individual Coaching**. He is also an active Board Member of Adaptive Sports at Mount Snow, a nonprofit organization providing sports, recreational opportunities, and educational experiences to individuals with disabilities.

As a former business leader, entrepreneur, and hedge fund COO, David has constructed teams in a variety of environments, both domestically and internationally, and built many successful businesses. An essential part of his success has been understanding the strategic needs of the businesses and marrying that with the career aspirations of the talent he recruited.

Along the way, David learned what he truly enjoys and is passionate about: working with good people who are prepared to put in the work to achieve their dreams (or sometimes simply to be able to pay the mortgage).

Graduating from Rutgers University's Leadership Coaching for Organizational Performance and joining forces with Epicoach, David is excited to use his platform to enhance the success and development of leaders and their teams. Beyond career development, David's focus includes helping executives articulate, define, and realize their visions and intentions.
